

LIST OF CONTENTS

I. INTRODUCTION.....	1
II. AIM OF THE WORK.....	2
III. REVIEW.....	3
Incidence of acute humoral rejection.....	3
Risk factors of acute humoral rejection.....	4
<i>Non immune factors.....</i>	<i>4</i>
<i>Immune factors.....</i>	<i>4</i>
Clinical picture of acute humoral rejection.....	5
Pathogenesis.....	6
<i>Components of the immune system:</i>.....	6
<i>a) Antigens:</i>.....	6
- Major histocompatibility antigens:.....	6
- Minor histocompatibility antigens:.....	7
<i>b) Cells:</i>.....	8
- <i>Pathogenesis of acute humoral rejection</i> <i>lymphocytes.....</i>	T- 8
- B-cells.....	11
- Macrophages.....	12
- Natural killer cells.....	13

- Granulocytes.....	13
c) Plasma factors:.....	14
d) Coagulation system:.....	14
e) Complement component:.....	16
- <i>Acute humoral rejection associated with complement activation:.....</i>	<i>16</i>
- <i>Acute humoral rejection not associated with complement activation:.....</i>	<i>17</i>
<i>Steps of acute humoral rejection:.....</i>	18
<i>Specific targets of acute humoral rejection:.....</i>	20
- <i>Acute tubulointerstitial rejection.....</i>	<i>20</i>
- <i>Acute vascular rejection.....</i>	<i>20</i>
- <i>Acute glomerular rejection.....</i>	<i>21</i>
<i>Pathologic changes of acute humoral rejection....</i>	22
Complement degradation product.....	27
Role of Fibrinogen.....	31
Classification system of renal allograft rejection.....	35
Differential diagnosis of acute humoral rejection.....	41
<i>1) Acute cellular rejection.....</i>	<i>41</i>
<i>2) Acute drug toxicity.....</i>	<i>43</i>
<i>3) Thrombotic microangiopathy.....</i>	<i>44</i>

<i>4) Acute tubular damage</i>	44
<i>5) Infection</i>	45
IV. PATIENTS AND METHODS	47
V. RESULTS	57
VI. DISCUSSION	109
VII. SUMMARY AND CONCLUSION	116
VIII. REFERENCES	119
IX. ARABIC SUMMARY	133
