INTRODUCTION	1
AIM OF INVESTIGATION	4
REVIEW OF LITERATURE	6
1. Microbiological quality of ready-to-eat foods	7
1.1. Meat products	7
1.2. Poultry products	9
1.3. Fish products	11
1.4. Potatoes and Rice products	12
2. Foodborne outbreaks associated with ready-to-eat foods	15
3. Treatment of food by ionizing radiation	17
4. Trails for improving the quality of ready – to – eat foods through irradiation processing	18
4.1. Microbiological properties of irradiated of ready-to-eat foods	18
4.2. Chemical properties of irradiated ready-to-eat foods	21
4.3. Organoleptic properties of irradiated ready-to-eat foods	23
5. Sensitivity of microorganisms to ionizing radiation	25

5.1. Effects of irradiation on foodborne pathogenic bacteria	25
5.2. Effects of irradiation on spoilage bacteria	29
5.3. Effect of irradiation on molds and yeasts	31
MATERIALS AND METHODS	34
2. Preparation of ready-to-eat meals	34
2.1. Cooked meat balls (Kofta)	34
2.2. Mashed potatoes	35
2.3. Baked deboned chicken breast meat with slices of potatoes	35
2.4. Baked fish	36
2.5. Cooked rice	37
3. Irradiation procedure	37
4. Storage of samples	38
5. Analytical procedure	38
5.1. Sensory evaluation	38
5.2. Microbiological analysis	41
5.3. Chemical analysis	43
RESULTS AND DISCUSSION	
1. Effects of gamma irradiation and cold storage ($4\pm1^{\circ}\text{C}$) on the microbiological properties of the prepared meals	43
1.1. Effects on the total bacterial count	43

1.1.1. Cooked meat balls	43
1.1.2. Mashed potatoes	45
1.1.3. Baked chicken breast meat with slices of potatoes	45
1.1.4. Baked fish	48
1.1.5. Cooked rice	50
1.2. Effects on the total psychrophilic bacteria	52
1.2.1. Cooked meat balls	52
1.2.2. Mashed potatoes	54
1.2.3. Baked Chicken meat with slices of potatoes.	54
1.2.4. Baked fish	57
1.2.5. Cooked rice	59
1.3. Effects on the total yeasts and molds	61
1.3.1. Cooked meat balls	61
1.3.2. Mashed potatoes	63
1.3.3. Baked deboned chicken meat with potatoes	65
1.3.4. Baked fish	65
1.3.5. Cooked rice	68
1.4. Effects on Enterobacteriaceae	70
1.4.1. Cooked meat balls	70
1.4.2. Mashed potatoes	72
1.4.3. Baked chicken meat with potatoes slices	72

1.4.4. Baked fish	75
1.4.5. Cooked rice	75
1.5. Effects on <i>Staphylococcus aureus</i>	78
1.5.1. Cooked meat balls	78
1.5.2. Mashed potatoes	80
1.5.3. Baked deboned chicken meat with potatoes	82
1.5.4. Baked fish	82
1.5.5. Cooked rice	85
1.6. Effects on <i>Streptococcus faecalis</i>	87
1.6.1. Cooked meat balls	87
1.6.2. Mashed potatoes	89
1.6.3. Baked deboned chicken meat with potatoes	91
1.6.4. Baked fish	91
1.6.5. Cooked rice	94
1.7. Effects on <i>Bacillus cereus</i>	96
1.7.1. Cooked meat balls	96
1.7.2. Mashed potatoes	98
1.7.3. Baked deboned chicken meat with potatoes	100
1.7.4. Baked fish	100
1.7.5. Cooked rice	103
1.8. Presence of <i>Salmonella</i>	105
