

CONTENTS

	Page
1. INTRODUCTION	1
2. REVIEW OF LITERATURE	3
2.1. Morphological Studies on <i>Gryllotalpa</i> spp.	3
2.2. Ecological Studies on Mole-cricket	4
2.2.1. Mole-cricket trapping	4
2.2.2. Mole cricket activity and populatio fluctuations ...	8
2.2.3. Behaviour and host plants of mole-cricket	10
3. MATERIALS AND METHODS	17
3.1. Morphological Characters of Certain Species of Genus <i>Gryllotalpa</i>	17
3.2. The Population Dynamics of <i>Gryllotalpa gryllotalpa</i> L. as Indicated by Catches in An Ultra-violet Light Trap	18
3.3. The Relative Efficacy of Three Types of Pitfall Traps in Sampling Mole-crickets	22
3.4. Survey of Mole-cricket Species at Giza Governorate Using a Pitfall and a Light Trap	28
3.5. Relationship Between Crop Rotation and Mole- cricket Infestation	28
4. RESULTS	31
4.1. The Morphological Characters of Certain <i>Gryllotalpa</i> spp.	31
4.1.1. The venation system of the fore wing of <i>Gryllotalpa</i> spp.	31
4.1.1 A. Fore wing of <i>Gryllotalpa gryllotalpa</i> L.	36
4.1.1.B Fore wing of <i>Gryllotalpa gryllotalpa</i> ssp. <i>cophta</i> ..	41
4.1.1.C Fore wing of <i>Gryllotalpa africana</i>	41
4.1.1.D. Fore wing of <i>Gryllotalpa africana</i> ssp. <i>african</i>	44
