I. INTRODUCTION.....	1
II. REVIEW OF LITERATURE:.....	4
1. General review of Literature.....	4
2. Feeding deterrent for locusts of plant origin.....	15
3. Antifeedants from Verbenaceae.....	20
III. MATERIALS AND METHODS:.....	28
PART I-A SURVEY OF FEEDING DETERRENTS IN FAM	
VERBENACEAE.....	28
I. 1- Plant Species used.....	28
I. 2- Preliminary test.....	32
1. 3- Preparation of Sampls.....	32
1. 4- Extraction.....	32
1. 5- Desert locust breeding.....	33
1. 6- Bioassay for feeding deterrence....	34
PART II-EFFICIENCY OF DIFFERENT SOLVENTS IN EXTRACT-	
ION OF ANTIFEEDING MATERIALS FROM SOME	
PLANTS.....	36
II- 1- Plant sp. and solvents used.....	36
II- 2- Preparation of samples.....	37
II- 3- Extraction.....	37
PART III-PHYTOCHEMICAL TRIALS.....	38
III- 1- Preparation of sample.....	38
III- 2- Intial extraction:.....	38
1. Preparation of <u>Lantana camara</u>	
leaves extract.....	38
2. Preparation of petroleum ether	
extract.....	38
3- Partition separation.....	39

	Page
4- Repititive partition of ethanol extract.....	40
PART IV. CHRMATOGRAPHIG SEPARATION.	41
IV. 1- Column chromatography.....	41
IV. 2- Phytochemical Screening for extract of <u>Lantana camara</u> (Verbenaceae)	42
1- Testfor glycoside and/or carbo- hydrate.	42
2- Test for sterols.	43
i) The Lieberman-Burchard reaction	43
ii) The Salkowski test.	44
3- Test for alkaloids.....	45
PART V- EFFECT OF ACTIVE MATERIAL OF FRACTION NO.1 ON OTHER INSECTS.	47
V- 1- Cockroaches (<u>Periplaneta americana</u>)..	47
i) Cockroaches used.	47
ii) Media for feeding the cockroaches.	47
V. 2- <u>Spodoptera littoralis</u> (Boisd.).	48
PART VI-SYSTEMIC PROPERTIES AND TOPICAL APPLICA- TION OF ACTIVE MATERIAL FOR <u>S. gregaria</u> .	49
VI-1- Test for systemic action.	49
VI-2- Test for plant surface spray.	50
IV. RESULTS AND DISCUSSION:	51
PART I. A SURVEY OF FEEDING DETERRENTS IN FAM. VERBENACEAE.	51
I. 1- Efficiency of synthetic antifeeda- nts and <u>M. azedirach</u> extract.....	51
I. 2. Efficiency of <u>Verbena sp.</u> extract.....	54

	Page
I. 3- Efficiency of <u>Citharexylum qua-</u> <u>drangulare</u> extract.....	57
I. 4- Efficiency of <u>Tectona grandis</u> extract.....	58
I. 5- Efficiency of <u>Caryopteris in-</u> <u>cana</u> extract.	59
I. 6- Efficiency of <u>Lippia nodiflora</u> extract.....	60
I. 7- Efficiency of <u>Vitex angus-</u> <u>castus</u> extract.....	61
I. 8- Efficiency of <u>Duranta plumieri</u> extract.....	62
I. 9- Efficiency of <u>Clerodendron sp.</u> extract.	63
I. 10- Efficiency of <u>Lantana Camara</u> extract.....	66
I. 11- Comparison of Different Organs	68
a- Leaves.	68
b- Stem.	69
c- Flowers.	71
d- Fruits.	72
PART II-EFFICACY OF DIFFERENT SOLVENTS USED	80
II- 1 - Plant sp. and Solvents used.....	80
II- 2 - COMPARISON BETWEEN THE EFFICIENCY OF DIFFERENT SOLVENTS IN THE EXT- RACTION.	89
PART III-PHYTOCHEMICAL TRIALS.....	92
1 - Initial trials with two solvents.	92
2 - Repetitive partition of ethanol extract.	93

	Page
PART IV. CHROMATOGRAPHIC SEPARATION.....	96
IV. 1- Column Chromatography.....	96
IV. 2- Phytochemical screening.....	99
1- Test for glycoside and/or carbohydrate.....	99
2- Test for sterols and/or triter- penoids.....	100
3- Test for alkaloids.....	100
PART V - BIOLOGICAL ACTIVITY OF ACTIVE MATERIAL,	102
V - 1- Feeding deterrence tests with coc- kroaches.	102
V - 2- Feeding deterrence tests with the larvae of <u>Spodoptera littoralis</u>	105
PART VI-SYSTEMIC PROPERTIES AND TOPICAL APPLICA- TION OF ACTIVE MATERIAL FOR <u>S. gregaria</u> .	108
VI- 1- Test for systemic action.	108
VI- 2- Effect of Surface spraying of the feeding deterrent on locusts.	110
V. SUMMARY.....	112
VI. REFERENCES CITED.....	116
VII. ARABIC SUMMARY.
