1. INTRODUCTION.....	1
2. REVIEW OF LITERATURE.....	5
1. Population dynamics, seasonal abundance and damage caused by <i>Pectinophora gossypiella</i> and <i>Earias insulana</i> in cotton fields.....	5
2. Effect of EM (effective microorganisms) on cotton bolls and bollworms.....	8
3. Effect of Mikrofol (foliar fertilizers) on cotton bolls and bollworms.....	10
4. Effect of bacterial bioinsecticides on cotton bollworms.....	12
5. Effect of some insecticides on cotton bollworms.....	16
6. Population dynamics and seasonal abundance of bollworms' Predators.....	22
7. Effect of fertilizers on cotton yield and fiber quality.....	24
8. Effect of insecticides on cotton yield and fiber quality.....	27
9. Effect of different agrochemicals on certain biochemical aspects of cotton bolls.....	28
MATERIALS AND METHODS.....	31

	Page
1. Materials used.....	31
1.1. Effective microorganisms (EM).....	31
1.2. Foliar fertilizer (Mikrofol).....	31
1.3. Bioinsecticide (Dipel 2X).....	32
1.4. Pleo (new chemical group)	32
1.4.2. Conventional Spray Program.....	33
1.5. Spray regimes on cotton during 2006, seasons.....	33
2. Field studies.....	34
2.1. Experimental design.....	34
2.1.1. 2004 and 2005 seasons.....	34
2.1.2. 2006 season.....	35
2.1.3. Effect of season 2006 spraying regimes on cotton infestation by pink and spiny bollworms.....	36
2.2. Survey of the most common insect predators, associated with different treatments, on cotton plants.....	36
3. Determination of some biochemical aspects in cotton bolls.....	37
3.1. Quantitative determination of carbohydrates by determination of soluble sugars.....	37
3.4. Fiber quality.....	39
RESULTS AND DISCUSSION.....	41
Part 1.....	41
Effect of tested agrochemicals on the infestation percent and larval contents of pink and spiny bollworms in cotton fields during 2004 and 2005 in Egypt.....	41

	Page
1. Pink bollworm, <i>Pectinophora gossypiella</i>	42
1.1. Infestation percent.....	42
1.1.1. Cotton season, 2004.....	42
1.1.2. Cotton season, 2005.....	48
1.2. Larval content.....	54
1.2.1. Cotton season, 2004.....	54
1.2.2. Cotton season, 2005.....	57
2. Spiny bollworm, <i>E. insulana</i>	61
2.1. Infestation of cotton bolls.....	61
2.1.1. Cotton season, 2004.....	61
2.1.2. Cotton season, 2005	67
2.2. Larval content.....	75
2.2.1. Cotton season, 2004.....	75
2.2.2. Cotton season, 2005.....	78
Part 2	82
Effects of tested agrochemicals on cotton bolls opening, characters of yield and lint properties during 2004 and 2005, Egypt.....	82
1. Opening of cotton bolls.....	82
2. Yield of cotton seed.....	87
3. Major nutrients and carbohydrates content in cotton bolls.....	91
5. Effect of tested agrochemicals on cotton fiber quality.....	99
Part 3	104
1. Seasonal abundance of total population of predaceous insects in cotton field	104

	Page
1.1. Total counts of predators in cotton fields.....	104
1.2. Abundance of existed predators in cotton fields.....	125
1.2.1. <i>Coccinella undecimpunctata</i>	126
1.2.2. <i>Scymnus spp</i>	128
1.2.3. <i>Paederus alfieri</i>	129
1.2.4. <i>Orius spp</i>	130
1.2.5. <i>Chrysoperla carnea Steph</i>	131
1.2.6. <i>Syrphus corolla</i>	133
Season 2006	134
Effect of tested agrochemicals on the infestation and larval content of bollworms in cotton fields with 2006, season.....	135
1. Pink bollworm, <i>Pectinophora gossypiella</i>	135
1.1. Infestation percent.....	135
1.1.2. Larval content.....	142
1.2. Spiny bollworm, <i>E. insulana</i>	145
1. 2.1. Infestation of cotton bolls.....	145
1.2.2. Larval content.....	151
Effects of tested agrochemicals on boll opening, characters, yield and lint properties of cotton during 2006 season.....	154
1. Opening of cotton bolls.....	155
2. Yield of seed cotton.....	155
3. Major nutrients and carbohydrates content of cotton bolls	160

	Page
4. Effect of tested agrochemicals regimes on total indoles, phenols and photosynthetic pigments of cotton bolls.....	164
5. Effect of tested agrochemicals regimes on cotton fiber quality	168
1. Seasonal abundance of total population of predaceous insects predators in cotton field during 2006, season.....	173
1.1. Total counts of predators in cotton fields.....	173
1.2. Abundance of existed predators in cotton fields.....	184
1.2.1. <i>Coccinella undecimpunctata</i>	184
1.2.2. <i>Scymnus spp</i>	185
1.2.3. <i>Paederus alfieri</i>	185
1.2.4. <i>Orius spp</i>	186
1.2.5. <i>Chrysoperla carnea Steph</i>	187
1.2.6. <i>Syrphus corollae</i>	188
