INTRODUCTION	1
REVIEW OF LITERATURE	2
1- Entomopathogenic nematodes	2
2- Classification of entomopathogenic nematodes	2
3- Life cycle	4
4- Mutualistic bacteria	6
5- Host finding and infection	8
6- Soil environment	10
6.1- Soil texture	11
6.2- Soil temperature	12
6.3- Soil moisture	13
6.4- Soil pH	13
6.5- Soil oxygen	13
7- Consideration in nematode culture	14
A- <i>In vivo</i> production	14
B- <i>In vitro</i> production	16
C- Storage	17
8- Entomopathogenic nematodes as biocontrol agents against insect pests	19
9- Entomopathogenic nematodes for controlling dipterous pests	27
MATERIALS AND METHODS	33
1- Techniques used for rearing the concerned insect species	33
a- <i>C. capitata</i>	33
b- <i>Galleria mellonella</i>	33
2- Entomopathogenic nematode species	34
a- <i>Steinernema abbasi</i>	34
b- <i>Steinernema riobravisi</i>	34
c- <i>Heterorhabditis bacteriophora</i>	34
d- <i>Heterorhabditis tayserae</i>	34

CONTENTS : Continued.

	Page
3- Tests	35
A- Laboratory experiments	35
1- Infectivity of the different entomopatho- genic nematode species to larvae and pupae of <i>C. capitata</i>	35
2- Host finding ability	36
3- Production of entomopathogenic nematode species	36
B- Semi-field experiments	37
1- Pathogenicity of nematodes at different water content of the soil	37
2- Pathogenicity of nematode species in two different soil types	37
RESULTS AND DISCUSSION	38
A- Laboratory experiments	38
1- Infectivity of the different entomopatho- genic nematodes to full grown larvae of <i>C. capitata</i>	38
2- Infectivity of the different entomopatho- genic nematodes to pupae (one day old) of <i>C. capitata</i>	52
2.1- First method	52
2.2- Second method	55
3- Infectivity of the different entomopatho- genic nematodes to pupae (three days old) of <i>C. capitata</i>	57
3.1- First method	57
3.2- Second method	60
4- Host finding	62

CONTENTS : Continued.

	Page
5- Production of infective juveniles (IJs) of four species of entomopathogenic nematodes from infected pupae of <i>C. capitata</i>	65
B- Semi-field experiments	69
1- Infectivity of the different entomopathogenic nematodes to one day old pupae of <i>C. capitata</i>	69
2- Infectivity of the different entomopathogenic nematodes to full-grown larvae of <i>C. capitata</i>	75
3- Infectivity of the different entomopathogenic nematodes to one day old pupae of <i>C. capitata</i>	88
4- Infectivity of the different entomopathogenic nematodes to three days old pupae of <i>C. capitata</i>	93
