I – INTRODUCTION	1
II – REVIEW OF LITERATURE	4
III – MATERIALS AND METHODS	27
IV – RESULTS AND DISCUSSION	35
IV – I – Phynological phases	35
IV – I – 1 – Start of vegetative bud breaking.....	35
IV – I – 2 – Start of floral bud breaking.....	37
IV – I – 3 – Full bloom.....	40
IV – I – 4 – Flowering duration	42
IV – I – 5 – Fruit set	45
IV – I – 6 – Harvesting date	45
IV – I – 7 – Duration from full bloom till harvesting ...	49
IV – II – Vegetative growth measurements	52
IV – II – 1 – Shoot length increase	53
IV – II – 2 – Increment percentage in trunk diameter	55
IV – II – 3 – Number of leaves per shoot	57
IV – II – 4 – Leaf dry weight	59

IV – II – 5 – Leaf length	62
IV – II – 6 – Leaf width	64
IV – II – 7 – Leaf shape index	64
IV – II – 8 – Leaf area	66
IV – II – 9 – Leaf area factor	67
IV – III – Nutritional status (leaf mineral composition)	70
IV – IV – Some measurements of fruiting/cropping aspects ...	92
IV – IV – 1 – Fruit set percentage	92
IV – IV – 2 – Fruit yield	95
IV – V – Fruit quality	100
IV – V – A – Fruit physical characteristics.....	100
IV – 5 – A – 1 – Fruit weight (gm).....	101
IV – 5 – A – 2 – Fruit volume (ml).....	103
IV – 5 – A – 3 – Fruit height.....	106
IV – 5 – A – 4 – Fruit diameter.....	108
IV – 5 – A – 5 – Fruit shape index.....	108
IV – 5 – A – 6 – Fruit firmness.....	113
IV – 5 – A – 7 – Fruit Flesh weight (gm).....	115
IV – 5 – A – 8 – Stone (seed) weight (gm).....	117

IV - 5 - A - 9 - Flesh / stone ratio.....	119
IV - V - A - 10 - Fruit colour.....	122
IV - 5 - B - Fruit chemical properties.....	122
IV - 5 - B - 1 - Fruit juice TSS %	122
IV - 5 - B - 2 - Fruit juice acidity %	126
IV - 5 - B - 3 - Fruit juice TSS / acid ratio.....	128
V - SUMMARY AND CONCLUSION	132
VI - LITERATURE CITED	143
VII - ARABIC SUMMARY
