	Page
I. INTRODUCTION.....	1
II. REVIEW OF LITERATURE	4
II.1. Pre-protoplast isolation.....	4
II.1. a. Effect of anti-oxidant treatments.....	4
II.2.b. Effect of plasmolysis	5
II.2. Protoplast Isolation.....	7
II.2.a. Effect of digestive enzyme medium type	7
II.2.b. Effect of enzyme type.....	10
II.2.c. Effect of protoplast source.....	12
II.2.d. Effect of Osmotic pressure factors.....	15
II.2.e. Effect of incubation conditions.....	17
II.2.f. Effect of shaking.....	19
II.3. Filtration.....	21
II.3.a. Effect of pore size of mish sieve.....	21
II.3.b. Effect of centrifugation.....	23
II.4. Protoplast culture.....	24
II.4.a. Effect of medium type.....	24
II.4.b. Effect of cultured cell density.....	28
II.4.c.Effect of hormonal balance	31

III. MATERIALS AND METHODS.....	35
Leaf sterilization.....	35
Explant preparation.....	6
III.1. pre-protoplast isolation.....	36
III.2. Protoplast isolation	38
III.3.Purification.....	40
III.4. Protoplast culture	40
III.5.Preparations and determinations	42
IV. RESULTS AND DISCUSSION	46
4.1. <i>Pyrus betulaefolia</i>	46
4.1.1. Pre-protoplast isolation.....	46
4.1.2. Protoplast isolation.....	52
4.1.3. Purification.....	61
4.1.4. Protoplast culture.....	64
4.2. <i>Pyrus communis</i>	71
4.2.1. Pre-protoplast isolation.....	71
4.2.2. Protoplast isolation.....	78
4.2.3. Purification.....	87
4.2.4. Protoplast culture.....	90
V. SUMMARY	98
VI. LITERATURE CITED	103
