ACKNOWLEDGEMENT.....	1
I - INTRODUCTION.....	2
II - REVIEW OF LITERATURE.....	4
1 - Effect of salinity on plant growth.....	4
a - Effect of salinity on growth measurements..	4
b - Effect of salinity on fresh and dry weight.	13
2 - Effect of salinity on leaf chlorophyll content.	15
3 - Effect of salinity on leaf and root mineral com- position.....	18
III - MATERIALS AND METHODS.....	26
IV - RESULTS AND DISCUSSION.....	30
A - Effect of salt concentrations, sodium adsorpti- on ratio (S.A.R.) and chloride levels in irri- gation water on growth measurements:.....	30
1 - Stem length.....	30
2 - Number of leaves.....	32
3 - Number of branches.....	33
4 - Top to root-ratio.....	36
5 - Leaves and stem dry weight.....	37
6 - Root and total plant dry weight.....	39
B - Effect of salt concentrations, sodium adsorpti- on ratio (S.A.R.) and chloride levels in irri- gation water on leaf chlorophyll content.....	41

C	- Effect of salt concentrations, sodium adsorption ratio (S.A.R.) and chloride levels in irrigation water on leaf and root mineral composition:.....	43
	1 - Leaf and root nitrogen content.....	43
	2 - Leaf and root phosphorus content.....	44
	3 - Leaf and root potassium content.....	46
	4 - Leaf and root sodium content.....	47
	5 - Leaf and root Calcium content.....	48
	6 - Leaf and root magnesium content.....	49
V	- TABLES.....	50
VI	- FIGURES.....	69
VII	- SUMMARY.....	75
VIII	- LITERATURE CITED.....	78
	ARABIC SUMMARY.
