INTRODUCTION	1
REVIEW OF LITERATURE.....	3
A)Biological studies.....	3
B)Technological studies.....	10
C)Physiological studies.....	18
MATERIALS AND METHODS.....	23
Materials.....	23
Methods.....	24
Rearing Technique.....	24
Treatment by plant extracts oils.....	25
Mounting process and fresh cocoon treatments.....	25
A) Biological aspects.....	26
a- Larval stage aspects.....	26
b- Adult stage aspects.....	27
B) Technological aspects.....	27
a- Cocoon indices.....	27
b- Reelable filament indices.....	28
C) Physiological aspects.....	29
a-Physiological measurements of the haemolymph soluble protein content in the larval haemolymph.....	29
b-Determining the activities of GOT and GPT enzymes in haemolymph.....	30
RESULTS.....	32
A) Biological results.....	32

	Page
B) Technological results.....	54
a- Cocoon indices.....	54
b- Reelable filament indices.....	63
C) Physiological results.....	72
1-Determining the activities of GOT and GPT enzymes in haemolymph.....	72
2. Soluble protein content in larval haemolymph	78
DISCUSSION.....	82
A) Biological results.....	82
a- Larval stages aspects	82
b- Adult stage aspects.....	85
B) Technological results.....	87
a- Cocoon indices.....	87
b- Reelable filament indices.....	89
C) Physiological results.....	91
a-Determining the activities of GOT and GPT enzymes in haemolymph.....	91
b- Soluble protein content in larval haemolymph ..	93
SUMMARY.....	95
REFERENCES.....	101
ARABIC SUMMARY.....	-
