I. INTRODUCTION.....	1
2. REVIEW OF LITERATURE.....	3
2.1. Effect of fertilization with N.P.K	4
2.1.1. Vegetative growth characteristics.....	4
2.1.2. Chemical constituents of plant foliage.....	6
2.1.3. Total fruit yield and its components.....	8
2.1.4. Fruit quality.....	10
2.2. Effect of spraying with natural compounds on...	13
2.2.1. Vegetative growth characteristics	13
2.2.2. Chemical constituents of plant foliage.	14
2.2.3. Total fruit yield and its components.....	15
2.2.4. Fruit quality.....	16
2.3. Effect of spraying with mineral salts on.....	17
2.3.1. Vegetative growth characteristics.....	17
2.3.2. Chemical constituents of plant foliage.....	19
2.3.3. Total fruit yield and its components.....	19
2.3.4. Fruit quality.	21
2.4. Effect of cultivars on.....	22
2.4.1. Vegetative growth characteristics.....	22
2.4.2. Chemical constituents of plant foliage.....	23
2.4.3. Total fruit yield and its components	23
2.4.4. Fruit quality.....	24
3. MATERIALS AND METHODS.....	27
3.1. First experiment	30
a- NPK fertilization treatments.....	30

	Page
b- Spray treatments.....	31
3.2. Second experiments	32
3.3. Data recorded.....	32
3.3.1. Vegetative growth characteristics.....	32
3.3.2. Chemical composition of plant foliage.....	33
3.3.3. Fruit yield and its components	33
3.3.4- Fruit quality.....	34
3.3.5. Statistical analysis.....	35
4. RESULT AND DISCUSSION.....	36
4.1.First experiment, Effect of NPK mineral fertilizers and spraying with Hammar® and Pepton® as well as their interaction on vegetative growth, chemical composition, fruit yield and its quality of strawberry plants cv. Sweet Charlie.....	36
4.1.1. Vegetative growth characteristics.....	36
a. Effect of mineral fertilizers.....	36
b. Effect of natural compounds	39
c. Effect of the interaction.....	40
4.1.2. Chemical constituents of plant foliage.....	40
a. Effect of mineral fertilizers.....	42
b. Effect of natural compounds	43
c. Effect of the interaction.....	44
4.1.3.Fruit yield and its components.....	44
a. Effect of mineral fertilizers.....	44
b. Effect of natural compounds	47

	Page
c. Effect of the interaction.....	48
4.1.4. Physical fruit quality.....	48
a. Effect of mineral fertilizers.....	48
b. Effect of natural compounds	50
c. Effect of the interaction.....	51
4.1.5. Chemical fruits quality.....	51
a. Effect of mineral fertilizers.....	51
b. Effect of natural compounds	54
c. Effect of the interaction.....	54
4.2. Second experiments: Effect of spray with mineral salts on growth, yield and quality of fruits for some strawberry cultivars.....	55
4.2.1. Vegetative growth characteristics.....	55
a. Effect of cultivar.....	55
b. Effect of mineral salts.....	58
c. Effect of the interaction.....	59
4.2.2. Chemical composition of plant foliage.....	59
a. Effect of cultivar.....	59
b. Effect of mineral salts.....	59
c. Effect of the interaction.....	61
4.2.3. Fruit yield and its components.....	61
a. Effect of cultivar.....	61
b. Effect of mineral salts.....	64
c. Effect of the interaction.....	66
4.2.4. Fruit physical quality.....	66
a. Effect of cultivar.....	66

	Page
b. Effect of mineral salts.....	68
c. Effect of the interaction.....	69
4.2.5. Fruit chemical quality.....	69
a. Effect of cultivar.....	69
b. Effect of mineral salts.....	72
c. Effect of the interaction.....	73
5. SUMMARY AND CONCLUSION	74
6. REFERENCES	84
ARABIC SUMMARY.....	-
