

CONTENTS

	Page No.
I. INTRODUCTION	1
II. REVIEW OF LITERATURE.....	3
2. 1 Types of mowers; their adjustments and maintenance.....	3
2. 1.a. Types of mechanical mowers.....	3
2. 1.b. Mowers adjustments and maintenance.....	5
2. 2. The effect of technical characteristics and operating conditions of mowers on their performance.....	8
2. 3 Field capacity and field efficiency.....	18
2. 4. Cost analysis and economical evaluation.....	19
III. MATERIALS AND METHODS.....	23
3. 1 Developed prototype of front - mounted mower.....	23
3. 2. Improvement of a rear mounted mower.....	25
3. 3. Equipment and instruments required for the study.....	28
3. 4. Experimentation.....	36
IV. RESULTS AND DISCUSSION.....	42
4. 1. Evaluation of different types of mowers used in Egypt ...	42
4. 1.a. Field capacity and field efficiency.....	43
4. 1.b. Cutting efficiency and harvesting losses.....	47
4. 2. Testing of front mounted mower (prototype).....	49
4. 2.a. Field capacity and field efficiency.....	50
4. 2.b. Cutting efficiency and harvesting losses.....	56
4. 3. Testing of the improved rear mounted mower equipped with conveying mechaniza.....	58

4. 4.	Technical and economical evaluation of developed mowers.....	63
4. 4.a.	Machine performance.....	63
4. 4.b.	Machine cost.....	69
5.	SUMMARY AND CONCLUSIONS.....	77
6.	REFERENCES.....	82
7.	APPENDIX	85
8.	ARABIC SUMMARY
