Subject	Page
1. INTRODUCTION	1
II. REVIEW OF LITERATURE.....	3
2.1. Effect of. propagation materials on.....	3
2.1.1. Survival plant percentage	3
2.1.2. Vegetative growth characters	5
2.1.3. Flowering behavior.....	6
2.1.3. Flower head yield and its components.....	6
2.1.4. .Flower head quality.....	8
2.2. Effect of growth stimulants and antiseptic substance on.....	9
2.2.1. Survival plant percentage	9
2.2.2. Vegetative growth characters	11
2.2.3. Flowering behavior	16
2.2.4. Flower head yield and its components.....	17
2.2.5. Flower head quality	20
III. MATERIALS AND METHODS.....	22
IV. RESULTS AND DISCUSSION	29
4.1 Survival plant percentage and Vegetative growth characters.....	29

Subject	Page
4.1.a. Effect of propagation materials	29
4.1.b.Effect of growth stimulants and antiseptic substance	31
4.1.c. Effect of the interaction between propagation materials and growth stimulants and antiseptic substance.....	32
4.2. Flowering behavior.....	32
4.2.a. Effect of propagation materials.....	33
4.2.b.Effect of growth stimulants and antiseptic substance.....	38
4.2.c.Effect of the interaction between propagation materials and growth stimulants and antiseptic substance.....	38
4.3.Flower head yield and its components	39
4.3.a. Effect of propagation materials.....	39
4.3.b.Effect of growth stimulants and antiseptic substance.....	42
4.3.c.Effect of the interaction between propagation materials and growth stimulants and antiseptic substance.....	43
4.4. Flower head physical quality.....	43
4.4.a. Effect of propagation materials	43
4.4.b.Effect of growth stimulants and antiseptic substance.....	46

Subject	Page
4.4.c. Effect of the interaction between propagation materials and growth stimulants and antiseptic substance.....	47
4.5 Chemical fruit quality	47
4.5.a. Effect of propagation materials	48
