

TABLE OF CONTENTS

CHAPTER	PAGE
1 - INTRODUCTION	(1)
2 - REVIEW OF LITERATURE	(3)
2.1 The Immune system	(3)
2.2 Evaluation of humoral immune response .	(14)
2.3 The effect of dietary protein on Fowl immune response .	(17)
2.4 The effect of dietary protein level on some serum parameters related to immune response in Fowl .	(18)
2.5 The effect of dietary protein on chicken growth and performance .	(26)
3 - MATERIAL AND METHODS .	(29)
3.1 Birds , Feed and Management .	(29)
3.2 Immunization procedure .	(30)
3.3 Estimated parameters .	(31)
4 - RESULTS AND DISCUSSION	
4.1 Effect of dietary protein level on immune response of the experimental chicks .	(36)
4.1.1 Percentage of T_4 - ^{125}I bound to gamma globulin .	(39)
4.1.2 Electrophoretic fractionation of serum proteins (Albumin, Alpha, Beta and gamma globulins).	(48)
4.1.3 Serum total thyroxine (T_4) .	(67)
4.1.5 Serum triiodothyronine (T_3) .	(74)

4.2 Effect of dietary protein level and thyro-globulin immunization on some metabolic blood parameters .	(80)
4.2.1 Serum Total proteins .	(80)
4.2.2 Serum Albumin .	(81)
4.2.3 Serum globulins .	(82)
4.2.4 Albumin / globulin ratio .	(82)
4.2.5 Serum total lipids .	(102)
4.2.6 Serum total cholesterol .	(102)
4.2.7 Serum transaminase activity (SGOT) .	(113)
4.2.8 Serum Transaminase activity (SGPT) .	(113)
4.3 Effect of dietary protein level on some growth measurments .	(123)
4.3.1 Body weight .	(123)
4.3.2 Feed consumption .	(130)
4.3.3 Feed efficiency .	(136)
5 - SUMMARY .	(142)
6 - REFERENCES .	(147)
