INTRODUCTION.....	1
REVIEW OF LITERATURE.....	3
1- Ecological Studies.....	3
2- The most important species of Fungal Pathoges.....	12
3- Biological Control	16
MATERIALS AND METHODS.....	18
1- Ecological Study.....	18
1-1-Survey and identification.....	18
1-2- Population fluctuation studies.....	19
II- Bioassay	19
A-Culturing of <i>T.urticae</i>	19
B-Preparing the solution of bio. Compounds.....	20
C- Laboratory experiment.....	20
D- Field experiment.....	21
III- Biological Studies of predatory the spider(<i>Nurscia albomaculata</i>)	22
A- Rearing of mite prey.....	22
B- Rearing of insect prey.....	22
RESULTS AND DISCUSSION.....	24
1-1-Ecological Field Studies.....	24
1-Incidence of spider mites associated with cotton plants during two seasons 2002 and 2003 at El- Fayoum and El-Menofia Governorates	24
1I- Incidence of predacious mite, insects and Spiders associated with cotton plants during two seasons 2003 at El- Fayoum and	

El-Menofia Governorates.....	27
II-A-Predacious mites.....	27
II-B- Predacious insects.....	30
II-C- Spiders.....	33
1-2- Population dynamics.....	37
2-1-Laboratory Experiments	60
2-2-Field Experiments.....	90
3-Biological Study	93
SUMMARY.....	97
REFERENCES.....	102
