|---|-----------|
| <b>Introduction and aim of the work</b> .....         | 1         |
| <b>Review of literature</b> .....                     | 3         |
| -Chapter 1 : Occult bacteremia.....                   | 3         |
| *Defenition.....                                      | 3         |
| *Incidence.....                                       | 4         |
| *Pathophysiology.....                                 | 5         |
| *Clinical support tools.....                          | 8         |
| *Laboratory diagnosis.....                            | 10        |
| *Complications.....                                   | 15        |
| *Prognosis.....                                       | 16        |
| -Chapter 2 : Procalcitonin (PCT).....                 | 17        |
| *Biochemistry.....                                    | 17        |
| *Stability and kinetics.....                          | 25        |
| *PCT and cytokins.....                                | 27        |
| *Comparison of CRP and PCT.....                       | 29        |
| *Clinical application.....                            | 31        |
| *Procalcitonin measurements.....                      | 41        |
| -Chapter 3 : Procalcitonin and occult bacteremia..... | 43        |
| <b>Subjects and methods</b> .....                     | <b>45</b> |
| <b>Statistical methods</b> .....                      | <b>53</b> |
| <b>Results</b> .....                                  | <b>55</b> |

|                                    |            |
